EMPLOYEE MANUALS

How many times has it crossed your mind that this is a good idea? I have talked to many companies who have been working on a manual for over 6 months and others up to two years.

Why not let MMW Human Resource Solutions get it done for you in a matter of weeks? Go to our "Resources" selection on the top of webpage (<http://www.mmwi.com/resources/Employee%20Manual.pdf>) and you can find a sample manual with an index included showing an example of the things that are covered. If your company needs more areas covered, that is no problem because no two companies are alike.
